Since letter sheet envelopes have been

placed upon sale at the different post offices

about a month ago—over two million

point to their becoming popular and in a

measure superseding postal cards.

Commissioner Colman, of the Depart-

ment of Agriculture, has been notified that

the Bureau of Animal Industry, at

Chicago, to examine and report to the

Department whether the reported disease is

really pleuro-pneumonia. If it is, the

commissioner says he will take the most

decisive steps that law permits to thor-

oughly stamp it out.

The collections of Internal revenue dur-

ing the months of July and August last

of the animals is fair. In some parts of

Wisconsin farmers are keeping hogs

on account of cholera, and reports from

Iowa are of a similar character in the

same cases.
